There has been an action completed on your permit. You can locate a copy of your documents from our website at this link: <https://www.colorado.gov/pacific/cdphe/wq-final-permit-actions>.

Your discharge permit requires that specific actions be performed at designated times. You are legally obligated to comply with all terms and conditions of your permit. It is especially important to note the "**EFFECTIVE DATE OF PERMIT**", not the "**DATE SIGNED**", located under the Manager's signature of page 1, of your permit. It is illegal to discharge per the conditions of this permit until that date.

Please read the permit, fact sheet and water quality assessment. If you have any questions contact the Division.
