TOTAL PAGES (INCLUDING COVER SHEET): one DATE: 10/9/08

In regard to the report of a release of material from your facility, please submit a written report to the Water Quality Control Division within five (5) working days of the date of the event or receipt of this fax sheet. Please include the following information:

- 1) Estimated quantity of material and type released, description of the event and its cause.
- 2) Exact dates and times of the event, including duration? If release still occurring, the date and time the release is expected to be stopped.
- 3) Exact location of release (i.e. address, lat/long, road name and mile marker.), were other entities affected, if so, who, where located, how were they affected?
- 4) Did materials reach surface waters of the state? If yes, what water body and estimated volume? Did it soak into soil, was groundwater impacted, yes/no, why? Estimated volume?
- 5) Measures taken or planned to clean up spill or release. If not going to do clean up, why not?
- 6) Results (attach reports) of any samples taken, describe impacts to surface water (i.e. fish kill).
- 7) Describe notification if surface water impacted (i.e. signs posted, list downstream users, etc.).
- 8) Steps taken or planned to prevent reoccurrence of the event.
- 9) Attach MSDS's for any and all chemicals involved in the spill or release.

Please submit the report to my attention at the above address. Prior to the 5-working day deadline, you may request an extension to submit the report if sample analyses are justifiably going to require more time to analyze than the reporting time allows. Please send me an email with the extension request.

Should you have any questions please feel free to contact me at your earliest convenience via the email, fax number or phone number listed above. Thank you.
